HARBERTSON GETTING INTO CONDITION FOR 'HACK'

Jack Harbertson, intermountain light-heavyweight champion wrestler, is fast getting back into condition for his bout with "Young" Hackenschmidt at the Alhambra theater on the night of April 13. In his grueling bout with

Pete Visser last month, Jack suffered a great strain to his muscles, particularly to those of his left arm, right leg and neck, due to Pete's strength and punishing skill. He has overcome all of the effects of the match, however, and, according to reports from his training headquarters, the Pingree gymnasium, is in almost as good condition as he was before he and Visser went on the mat.

Hackenschmidt is training in Salt Lake City and has every confidence in being able to defeat Harbertson, according to Manager H. E. Skinner of the Alhambra theater. "In fact, Mr. Skinner stated this morning, if Hackenschmidt had not felt so sure of being a better wrestler than Harbertson, that he was willing to wrestle Jack on a winner-take-all basis, we would not have arranged to promote the match. I fully expect that it will be one of the most interesting that we have ever staged."

NOTICE SIGNED STRONG WARNING

United States Attorney General Tells Aliens to Obey the Law.

PHILADELPHIA, April 6.—The following notice, signed by United States Attorney General Gregory, was received today by the federal marshal of the Philadelphia district:

"No German alien enemy in this country who has not hitherto been implicated in plots against the interests of the United States need have any fear of action by the department of justice so long as he observes the following warning:

"Obey the law; keep your mouth shut."

RUSSIAN GAINS.
PETROGRAD, via London, April 6, 3:51 p. m.—(British Admiralty per Wireless Press)—German forces yesterday took the offensive in the region south of Riga and succeeded in penetrating the Russian lines, says an official statement issued today by the Russian war department. Later the Russians launched a counter attack, drove out the Germans and restored the positions.

SOLDIER BOY IS SERIOUSLY ILL

From Fort Bliss, El Paso, comes the following letter to The Standard:

"From a soldier of the American Mexican punitive expedition from Ogden, Utah.

"Editor Standard: Please publish in your paper which has shown great patriotism during the present crisis:

WAKE UP, AMERICANS

Wake up, America!

If we are called to war

Are we prepared to give our lives

For our sweethearts and our wives?

Are our mothers and our homes worth fighting for?

Let us pray God for PEACE, but

PEACE with HONOR!

But let's get ready to answer duty's call.

So when Old Glory stands unfurled

Let it mean to all the world, America is ready—that's all.

Sincerely yours,

WILLIAM K. MULLIGAN,

Wagon company No. 4, care Aux Remount depot, Fort Bliss, El Paso, Texas.

A. W. HADLEY OFFERS HIS SERVICE FOR WAR PURPOSES

The veteran newspaper man and globe trotter, A. W. Hadley, has tendered his services to Chairman Richards of the committee on preparation and safety to drill a company, according to military regulations, as soon as one can be gotten ready.

Mr. Hadley has had six years of training at an eastern military academy and is well qualified for the service. It is needless to say that his tender was accepted with thanks and appreciation.

SPLENDID EXAMPLE OF AMERICAN MOTHERHOOD

Mrs. David W. Tribe, 61 years of age and the mother of seven living children, who resides at 548 Twenty-fourth street in this city, telephoned to Chairman Richards of the committee of preparation and safety this morning that she is ready to serve her country in any capacity that she may be needed.

Mrs. Tribe is a prominent Relief society worker in the Ogden stake and for years has served on the Relief society stake board. Such a magnificent specimen of American motherhood is worthy the admiration of the nation.

RAILROAD OFFICIALS TO BE PART OF U. S. ARMY

All railroad officials from superintendent down, including the entire organization, will be commissioned as regular army officers on all roads within the radius of military operations. The Southern Pacific officials were the first to respond, in perfecting this plan of the federal government, which was begun about three months ago.

These facts were disclosed today by Assistant Superintendent F. C. Smith of the Southern Pacific, in reply to inquiries.

When the government takes over the operation of the railroads within the military zones, said Mr. Smith, it will give the officials of the railroads and their entire organization a chance to qualify as army officers in the reserve corps, instead of detailing men from the regular army.

Rank of Officials.

These railroad officials will wear the army uniform and exercise all the authority of their rank.

Superintendents will have the rank of major, which is the highest rank so far allowed at the beginning of the plan.

The following will have the rank of captain: Assistant superintendents, division engineers, master mechanics and division storekeepers.

First lieutenants: Chief dispatchers, signal supervisors, trainmasters and road foremen of engines.

Second lieutenants: Assistant signal supervisors, yardmasters, general shop foremen, etc.

The general office personnel will be organized in the same way. The government's plan aims to simplify the management of the railroads during war time, to assure safety and efficiency, prevent trouble of all kinds, and facilitate the movement of troops and supplies.

The plan embodies the necessary authority to enable the railroad officers to "make good" under their heavy responsibilities.

Plans Cover Five Years.

The reserve corps obligation will extend five years. The officers will be obliged to qualify in education, experience and character, exactly like others outside the railroad service who take advantage of the opportunity to obtain a commission in the reserve corps. They also will attend military lectures and receive instruction at the nearest training camp.

All of the railroad men have the necessary physical requirements, it is said, and most of them will be able to qualify in all other respects.

Inquiry today concerning the current reports of a strike being threatened by the D. & R. G. train service employees elicited the assurance that a strike of railroad men now is logically impossible and that it would not be permitted by the federal government.

BOND ISSUE PROPOSED BY THE MAYOR AND COLLEAGUE

At a meeting of the city commission yesterday afternoon at 4 o'clock a resolution submitted by Mayor Heywood was adopted, proposing to call a special election to submit to the people the following bond issues:

For the Third ward sewer, to reconstruct the entire sewer system adequately for present needs and for many years to come, \$300,000.

For the payment of the 1915 warrants of the Fell administration, \$100,000.

For paving street intersections in proposed paving districts, \$50,000.

The election date was not fixed. On advice of Mayor Heywood, the date and final plans were held in abeyance until the voters are fully advised. The commissioners agreed that these bonds are imperatively required for the city's development. The board agreed with the mayor's statement, that the bonds are "up to the people."

AUTOMATIC SYSTEM CAUSES DAMAGE

Sprinkler Cap Broken Off, Water Flows From 3rd Floor of Wright Building—Stock of Goods Damaged.

A few years ago the firm of W. H. Wright & Sons installed an automatic sprinkling system for fire protection and since that time it has worked admirably. Yesterday afternoon, however, one of the workmen on the third floor accidentally knocked off a head of one of the sprinklers and portions of the building were given an unlooked for drenching. At first it was thought that a fire had started in the building, but it was soon discovered that there was "no fire." It was rather difficult to repair the break before considerable damage had been done.

Water quickly found its way to the floors below and dampened a large quantity of goods. The exact loss cannot now be estimated, as it cannot be determined how badly the stock of goods was damaged until it has been sorted out and examined. It is stated by the management, however, that damage was done to twenty dozen dresses, twenty dozen coats, a large number of shoes and a quantity of other goods. Minor damage was also done to parts of walls and some of the floors through which the water made its way.

STANDARD SENDS FOUR MEN TO DEFEND THE FLAG

The Standard has four representatives in Troop K, as follows: Second Lieutenant Roscoe C. Glasman, Blaine Glasman, Maurice Brandon and James A. Miles. The first named is one of the owners of the paper; the second, his brother; the third, circulation manager, and the last a collector in the business office.

Several others, among the employees, have expressed a desire to enlist and are trying to arrange a practical plan for the care of their families while they are in the army. All others of The Standard staff who are past the age limit have expressed their intention of serving in whatever capacity they may.

The comment is often heard that The Standard's showing in patriotic readiness so far has not been equalled by any newspaper in the state.

"IDLE WIVES" BRINGS MESSAGE TO EVERY HOME; AT ORPHEUM

Louis Weber and Philip Smalley produced a wonderful picture when they made "Where Are My Children?" but they have produced one that is even greater in "Idle Wives," their newest production which will open a four-days' engagement at the Orpheum theatre beginning next Sunday night at 6 o'clock. "Idle Wives" will appeal to all classes of people, the story in unique and appealing with one of the greatest lessons that could be carried to a home by mothers, fathers, sons and daughters. Miss Weber has taken characters from her audience, different types and created her story from the motion picture theater with its influence to carry home the lessons taught. If you were one that saw "Where Are My Children?" don't miss seeing "Idle Wives," because you will like it, and tell your friends to go and see it. We promise you will see a picture different from all others and better than most productions—Advertisement.

CARPENTERS ADJUST DIFFERENCE WITH WHITMEYERS

The labor trouble that cropped out yesterday between George Whitmeyer & Son, building contractors, and the union carpenters employed on the Plaza apartments in the Orpheum theatre building, was amicably settled this morning. The trouble did not result in a strike, according to representatives of the union, the men merely quitting their jobs when the general wage increase asked three months ago, and set for April 1, was not automatically granted by the employing firm.

"There is a vast difference between a strike and a walk-out," H. W. Beck, business agent of the local carpenters union, stated this morning. "Any member of the union is privileged to quit his employment if not suited by its conditions, but a strike is general and can only follow an order from the headquarters of the international union. On January 1st, 1917, Ogden Local No. 450 presented a new wage scale to become effective April 1st, to the building contractors of Ogden—ninety days notice. This date being close at hand, at the last meeting of the union, the members were granted the privilege of quitting their jobs, if the wage increase was not granted. The Whitmeyer company failed to accept the new scale and the walk-out followed. Today, the trouble was adjusted without difficulty and the carpenters on the Whitmeyer work are receiving \$5 per day."

"Sometimes ago," Mr. Beck continued, "Mr. Whitmeyer asked the privilege of operating under the old scale of wages until his contract on the Plaza apartments had been filled, but as the union had given three months notice of the new scale, and as it was not deemed advisable to make a general clause to that effect covering present contracts of all the contractors, the privilege could not be granted."

Speaking on the same subject this morning, George Whitmeyer, president of the firm, stated that he was not averse to granting the request of the carpenters' union for an increase of wages. Instead, he stated, he proceeded with his present building contract on the basis of the old wage scale, because of an agreement made with the business agent of the union last November, through which he was granted the privilege.

No further trouble is anticipated by the local carpenters of the employing firms as far as could be learned today.

SEATTLE, Wash., April 6.—The Hamburg-American liner Saxonia and the German sailing ship Steinbek, interned at Eagle Harbor, near Seattle,

were seized by deputy United States marshals early today. The crews were brought to the immigrant station in Seattle in a launch and confined in comfortable quarters there.

PORTLAND, Ore., April 6.—Customs officers assisted by soldiers early today seized three German sailing vessels—the Kurl, Dalbek and Arnoldus Weinen—who have been in refuge along the Columbia and Willamette rivers between here and Astoria since the outbreak of the war. The crews were removed and guards left in charge.

WILMINGTON, N. C., April 6.—Two German merchant ships, the Kiel and Nicaragua, have been seized by the government. Twenty members of their crews were taken prisoner and given comfortable quarters at the United States marine hospital grounds.

"IDLE WIVES" A GREAT PICTURE

The Orpheum will present another great success next week in "IDLE WIVES," produced by the same people—Louis Weber and Philip Smalley—who made "Where Are My Children?" "IDLE WIVES" carries a warning to young girls, to mothers and fathers. Will play the Orpheum Sunday, Monday, Tuesday and Wednesday.
